Please do not contact the college

## **See It to Be It**

Despite progress, fewer women are represented in STEM fields. Closing this gap is an opportunity to unlock talent, drive innovation, and build a more equitable future.

**AAUW Lansdale\*** in conjunction with the Montgomery County Community College, strives to enlighten girls to STEM opportunities. We want the girls to see women in STEM roles and see the possibilities.

Outstanding women leaders in Science, Technology, Engineering & Math volunteer their time and talents to inspire girls in a day of interactive workshops.

**Parents and Guardians**  
are encouraged to attend the opening presentation of the Keynote Speaker and informational remarks from AAUW and MC3 representatives.
